# NEWS

We have had a busy half term! We started the term celebrating World Book Day, we had lots of story sacks to explore. We also celebrated Science Week by having lots of experiments, and exploring colours. We have been busy in the garden, making bird feeders and a bug house from recycling.

We finished the term by celebrating Easter!

We planted sunflowers in the garden at Playstation, which we are looking forward to watching grow! Next term we shall continue to plant flowers in the garden, as we focus on the world around us and looking after the world.
